

craftART fusion

The Mission:

We encourage textile art. We want to make it visible from afar and want to show what is possible – what could be possible- beyond the traditional and common understanding.

We are therefore looking for...

- ... pieces that cause **inspiration** and excitement.
- ... pieces that reveal the enormous **potential** of textile technique and materials.
- ... pieces that break the boundaries of routine and utility.
- ... pieces that connect tradition with progress and progress with tradition.
